

```
vega:allenCahn stephendewitt$ cmake
```

```
Usage
```

```
  cmake [options] <path-to-source>
```

```
  cmake [options] <path-to-existing-build>
```

Specify a source directory to (re-)generate a build system for it in the current working directory. Specify an existing build directory to re-generate its build system.

Run 'cmake --help' for more information.

```
